6. APPOINTMENT OF AUDITORS:

Unless otherwise specified therein, it is presently intended to vote the proxy to appoint Moore Stephens Limited, Chartered Accountants, Gibraltar, as auditors of the Company, to hold office until the next annual meeting of shareholders, and to authorize the Directors to fix their remuneration.

7. OPTIONS:

There are currently 239,679 shares from exercise of options by Rodney T. Cox that the Company is obligated to issue upon demand. It should be noted that as the Company does not have a sufficient number of shares in its treasury to deliver such shares, the Company will have to acquire shares from private purchases or public transactions or share exchange offers in order to honour its obligation to deliver these 239,679 shares. No demand for the delivery of the exercised shares has been made to-date. The acquisition of these shares is expected to take place within the normal course of business. The Company has no other options authorised or outstanding.

8. INSURANCE:

The Company has liability insurance for its various offices and facilities worldwide. The Company is obligated to indemnify all of its Officers and Directors against any legal actions or threatened legal actions that are in any way related to their relationship to the Company. The indemnification includes paying all legal bills and all costs of any kind relating to any such claims.

9. INTEREST OF LARGE SHAREHOLDERS IN MATERIAL TRANSACTIONS WITH THE COMPANY:

Through the years, Rodney T. Cox and The Parmenides Group have guaranteed Company obligations without compensation and lent funds and securities to the Company without interest or any related fees being charged for these services. Dr. Cox and The Parmenides Group have also paid many Company bills without reimbursement and delivered gifts of shares to numerous people associated with the Company and its affiliated companies. The Company's previous U.S. accountant estimates that these direct cash and share payments, without any value being assigned to the guarantee services provided by The Parmenides Group and Rodney T. Cox, without compensation, to protect their investment in the Company and its affiliated companies, have totaled at least \$4 million over the past 27 years. In fiscal 2010, The Parmenides Group was paid for consulting services \$432,000, compared to \$432,000 in fiscal 2009. Rodney T. Cox and other Cox family members have leased office space to the Company in the U.S. and England. In fiscal 2011, rents totaled approximately \$59,000 compared \$120,000 in fiscal 2010. In addition, the Company and its affiliated companies have been engaged in numerous transactions with the above parties, all of which in the opinion of Management and the Board of Directors have been in the best interest of the Company and its affiliated companies.

For fiscal 2011, the Directors and Foundations were paid a total of \$ 2,356,372 for services, including the above payments.

In previous years, members of the Executive Committee using The Parmenides Group as nominee agreed to lend to Borealis Technical Limited (which is a 98% owned subsidiary of Borealis Exploration Limited) common shares of Borealis Exploration Limited to be used in funding the operations of the Company. As of 31 March 2011, 123,490 remain to be delivered against the original number of shares loaned.

The market value of the shares borrowed and the 239,679 option exercise shares whose delivery has been deferred as of 31 March 2011 was approximately \$962,397.85 compared to \$693,652.79 for 2010. This obligation is marked to market. The Company is buying shares and doing share exchanges from private shareholders to cover this position. For the 12 month period ending 31 March 2011 a total of 13,607 shares were repurchased and delivered to The Parmenides Group. No demand for the delivery of the borrowed shares has been made and none is expected until it can be made in the normal course of business.

Borealis has entered into one long-term contract that is outstanding with a Principal Scientist of the Company, having 10-year periods with two 10-year renewals. This contract is near the end of its second 10-year period, with one 10-year period remaining. The contract comes with substantial penalties if control of the Company should change. The penalty is a \$27 million cash payment, adjusted by inflation, to a Principal Scientist of the Company.
